Quantum Fuel Systems Technologies Worldwide, Inc. (NASDAQ: QTWW), an integrated alternative energy company, engages in the development and production of propulsion systems, energy storage technologies, and alternative fuel vehicles. Its portfolio of technologies include electronic controls, hybrid electric drive systems, hydrogen storage and metering systems, and alternative fuel technologies that enable fuel efficient, low emission hybrid, plug-in electric hybrid, fuel cell, and alternative fuel vehicles. The company also provides powertrain engineering; system integration; manufacturing and assembly of packaged fuel systems; and battery control systems for vehicles and other applications, including fuel cells, hybrids, plug-in electric hybrid, alternative fuels, and hydrogen refueling.

In addition, Quantum Fuel Systems Technologies designs, engineers, and manufactures hybrid and fuel cell vehicles. The company's powertrain engineering, system integration, and assembly capabilities provide fast-to-market solutions to support the production of hybrid and plug-in hybrid, hydrogen-powered hybrid, fuel cell, alternative fuel, and specialty vehicles, as well as modular and transportable hydrogen refueling stations.

Quantum Fuel Systems Technologies is the exclusive provider of the Q-Drive powertrain propulsion system used to power the Fisker Karma, a plug-in hybrid electric vehicle with a 100 MPG fuel efficiency. The Karma is the flagship product of the recently founded automotive company Fisker Automotive, of which Quantum Technologies is a co-founder and majority shareholder.

Quantum's customer base includes automotive original equipment manufacturers, military and governmental agencies, aerospace, and other strategic alliance partners. The company operates in the United States, Germany, Japan, Iceland, Hungary, and internationally. Quantum has strategic alliance with General Motors, Fisker Automotive,
